

Only patients scheduled for dental appointments will be allowed in our operatories.

In order to ensure the highest quality of care and confidentiality for our patients, and in compliance with HIPAA privacy policies; parents, family members or friends will be asked to stay in the waiting room. If needed, one person may be called back to attend exams and to discuss treatment after x-rays have been completed. Exceptions may be made for patients who are under 10 years of age, those with special needs, or those that need interpretation.

Children not receiving treatment will need to remain in the waiting area for their safety.

Any person approved to join	the patient in an operatory
must remain in that operatory	at all times during the visit.
(please initial)
